VERY BEST TABLE

in the country. Has comfortable sleeping rooms, good beds,

—AND—

SAFE CORRAL.

Travellers will find this a pleasant place to put up at.

Elizabeth R. Brannaman

AFTER.

After the shower, the tranquil sun;

After the snow, the emerald leaves;

Shining stars when the day is done;

After the harvest, golden sheaves;

After the cloud, the violet sky;

After the tempest, the lull of waves;

Quiet woods when the winds go by;

After the battle, peaceful graves;

After the knell, the wedding-bells;

After the bud, the radiant rose;

Joyful greeting from sad farewells;

After our weeping, sweet repose;

After the burden, the blissful meed;

After the flight, the downy nest;

After the furrow, the waking seed;

After the shadowy river, rest.

Cyclones.

The result of the cyclone at Richmond, Ray county, Missouri, was, twenty persons killed or mortally injured, eighty-three badly hurt, seventy-one houses and contents entirely swept away, and about thirty badly wrecked, involving a loss of over \$300,000.

The General at Canton, China, reports to the Department of State that a terrible tornado passed over that city on the 11th of April last, causing great destruction of life and property. The average breadth of the track left by the tornado is 600 feet. The United States Consulate was just beyond the track of the storm, and no American property was damaged. In the native city it is estimated that 10,000 persons were killed. Owing to the narrowness of the streets the work of removing the dead bodies from the wreck made slow progress and would take several weeks to accomplish. The weather was very hot, and the fearful stench from decomposing bodies led many to fear the outbreak of a pestilence.

The Enterprise has the following:

It having been determined that the location of the recent stage robbery was not in Yavapai county, Deputy U. S. Marshal Evans left by this morning's stage for Yuma, taking with him Jack Swilling and Andrew Kirby, charged with the crime. To settle the location, U. S. Surveyor C. B. Foster, was sent to Wickenburg and made a survey of the country line, and telegraphed the result of his findings, which occasioned the hasty departure of the Marshal. This invalidates the action of the Grand Jury and examination before the Commissioner, and will necessitate new proceedings in Yuma.

A postoffice has been established at Mesoville, Pinal county, A. T., with Josephine Dodson as postmistress.

The Tucson Star says: "The incorporation act, in favor of the Jesuit Fathers, passed by the New Mexico legislature, has been annulled by the Senate of the United States."

If we are correctly informed the U. S. Senate is not omnipotent. We understand that the House is a coordinate branch of the national congress and in order to negative a Territorial law it requires the concurrent action of both houses.

The incorporation act referred to is precisely the same in character as the one rendering the Presbyterian church of Santa Fe a body politic, as also those incorporating the Christian Brothers and Sisters of Loreto, of same Territory.

The Mesilla News: The Denver and Rio Grande railroad company have closed a contract with Carlile, Orman & Cook to grade the road from Alamosa to Santa Fe, one hundred and forty miles. It is provided that the grading shall be completed in five months.

The same paper makes the statement that the Atchison, Topeka and Santa Fe road is being pushed through to Las Vegas; that the work is under contract to Clifton, N. M.; and that the engineers are preparing work from Clifton to Las Vegas.

The News predicts that cars will be running to Las Vegas within a year and to the Rio Grande between Albuquerque and Bernalillo before two years. We fear the editor in predicting the time of arrival of cars at the points named allowed his desire to run away with his judgment. We would advise him, for the tranquilizing effect, to burn the "Ivy Green," in which the words "creeping, creeping, where no life is seen," occur, and re-fix the date when the iron-horse will snort in Las Vegas and on the east bank of the Rio Grande.

The Republican general convention is called to meet in Santa Fe, where the wire pullers are, July 30th.

The Baltimore Gazette says: There was a painful rumor yesterday that Secretary Sherman, on being confronted with the original copy of his letter to Anderson and Weber, had committed suicide by opening the main artery of his left arm. People who knew that Mr. Sherman's body contained no blood, and that the opening of an artery could only have the effect of improving the ventilation of his system, were not disturbed, but some silly folks actually believed that the horrible tragedy, prophesied by Mr. Stephens, the well-known soothsayer, had arrived.

St. Louis Republican: Prof. Ties has been visiting the region around Richmond, Mo., for traces of his meteorological cycles, but we are less concerned just now about the particular causes of past tornadoes, than we are about the prospect of more to come. Let Ties tell us squarely whether we are out of the dangerous influence, and how long we may safely count on relief from these planetary disturbances, which have become so frequent since he took the matter in hand.

It is clear that the willingness to reward Anderson at the public cost was not confined to Mr. Matthews, remarks the New York Times, Radical. The Department of State offered him the Consulate at Funchal. The Treasury tendered him an Inspectorship of Customs. Within certain limits, both Departments were prepared to recognize his claim; but the limits were too narrow for his ambition, and he carried his griefs to the Democracy.

PIETY.—"Having in my youth severe notions of piety," says a Persian writer, "I used to arise in the night watches to meditate, pray and read the Koran. One night, fully occupied with these practices, my father, a man of practical piety, awoke. 'Behold,' said I, 'thy other children are lost in irreligious slumber, while I alone awake to receive God.' 'Son of my soul,' answered he, 'it is better to sleep than to wake to remark the faults of thy brethren.'"

Chairman Whitehorse, of the House Committee on Naval Affairs, presented a report to the Naval Committee recommending measures to be taken by the Department of Justice for the indictment of ex-Secretary Robeson, ex-Naval contractor Hanscom, and ex-Engineer Wood, for malfeasance in office.

The Raleigh News says: Big, bold strokes win political as well as other victories. There has not been enough aggressiveness in the policy of the Democratic party. The Potter investigation will prove to have been the wisest and best step of the Democracy since the war.

"Salvation Factory" is the name of a church in England.

Handsomeness women can afford to dress plainly—but they hate to actually.

Senator Chaffee from Colorado backs down from a second candidacy to the U. S. Senate and still the world moves.

General Bonnerille, who graduated from West Point in 1815, one of the oldest officers of the army, died at Fort Smith, Arkansas, July 12th, aged 85.

Letter writing is a dreadfully dangerous habit, and nobody can appreciate the fact better than Beecher, Blaine, Matthews and Sherman.

A. B. Stockwell of New York, formerly president of the Pacific Mail Steamship company, has been adjudicated a bankrupt with liabilities of \$1,000,000.

If a tax of \$100 be placed on every Chinaman landing in California, the imperial authorities at Peking threaten to impose a similar tax on Americans landing in China.

Doña Eulalia Perez de Guzman, died at the San Gabriel Mission near Los Angeles, June 8th. Her age was supposed to be 143 years. She had lived at San Gabriel Mission nearly 100 years, having arrived there about the year 1790.

The Pacific Coast Timber Land bills have been approved by the President, and will be operative as soon as the Interior Department shall have prescribed regulations and instructions for the local land offices. The one which effects Arizona authorizes timber "to be taken for mining and domestic purposes only from the mineral lands."

Mr. William Allen Butler, the New York lawyer, best known as the author of "Nothing to Wear," lost \$50,000 worth of railroad bonds out of his safe. Shortly after the robbery was discovered his confidential clerk, named Bushnell, disappeared, and it then turned out that he had taken the bonds, hypothecated them and spent the money in stock-gambling.

The United States army officers detailed to watch the war in Turkey have been ordered home. Gen. Hazen, stationed on the Danube, will rejoin his regiment in Dakota. Lieut. Col. Chambers is ordered to New York, and Lieut. Greene of the engineers, who accompanied the army of the grand duke across the Balkans, will report at Washington.

Grant County Herald: J. G. Ward has decided to locate at Clifton, Arizona.

J. R. Johnson has moved his family to Silver City and will make this place his permanent home.

Con Murrian came in from the Lower Gila on Tuesday last and reports that the crops about Richmond promise to be very abundant.

Work on the new church is being pushed earnestly and the edifice will be completed at a much earlier day than had been anticipated.

The New Mexican says that John R. Magruder formerly of Grant county, where he was extensively engaged in mining, is now operating in Leadville, Colorado.

W. H. Eckles, formerly of the Herald is hard at work mining. He has taken a lease on one of the best mines, and has a fair prospect of striking something rich.

We learn that Messrs. I. N. Cohen & Co. have made arrangements to open a branch establishment at West's old stand on the corner of Broadway and Hudson streets.

We hear that candidates for the Probate Clerkship are very numerous and that each is pushing his claim upon the ground that he needs the office. Perhaps it might be well to elect some one whom the other needs.

An attractive feature of the Fourth in Silver City will be the presence of the 9th Cavalry band on our streets throughout the day and evening. The band consists of eighteen pieces and we may expect some first-class music.
